

MEETING ROOM BOOKING SYSTEMS

CONNECTING PEOPLE WITH MEETING SPACES

In today's fast-paced, flexible and dispersed workplace, a room scheduling platform is key to bringing the right people to the right space at the right time. Connecting your calendaring system to your meeting rooms, board rooms and conference rooms, enabling team members to easily see meeting details and providing simple on-screen instructions to help users of all abilities easily operate and conduct important meetings will improve the efficiencies of your organisation.

THE EXPERIENCE TO DELIVER THE RIGHT MEETING ROOM BOOKING SOLUTION

At KODUM, we can design and implement smart scheduling systems that will make your work environment more efficient, connected and collaborative.

A QUALITY PARTNERSHIP TO DELIVER OUTSTANDING RESULTS

We understand the importance of creating efficient, productive spaces for wherever your team is meeting.

We work closely with Crestron, a market-leading provider of smart scheduling technology to provide tailored solutions for your room booking systems.
