

STREAMING AND WEBCASTING SYSTEMS

MAXIMISE ENGAGEMENT WITH LIVE STREAMING AND WEB-BASED BROADCASTING

Tailored live streaming and webcasting systems allow you to deliver inspirational content to your teams, enhance training material, maximise engagement, connect your event to OSB (Out-Side Broadcasting) and manage distance learning.

A TAILORED VIDEO STREAMING SOLUTION

Whether you're delivering content to a select few in-house or thousands of people around the world every day, we'll design and deploy the right video streaming solution. We do this by taking multiple video sources and customised layouts from your Audio Visual Infrastructure and delivering it through our industry leading Streaming and Webcasting solutions.

QUALITY PARTNERSHIPS DELIVER OUTSTANDING RESULTS

At KODUM we work closely with global market leaders in streaming and webcasting systems to create the tailored solution that's right for you.
