

# WAYFINDING

## WAYFINDING SIGNAGE AND INFORMATION KIOSKS THAT GUIDE AND ENGAGE

Using interactive wayfinding, directories and kiosks to inform and guide your audience engages users while delivering confidence and corporate messaging at the same time.

At KODUM we understand the dynamic needs of the user. That's why our Wayfinding signage and kiosks are Hardware Agnostic, Multi-Site Capable, Cloud Connected, support Mobile Devices and can connect to Content Management Dashboards.

They're solutions that can be customised to suit virtually any application.

## WAYFINDING AND KIOSK SOLUTIONS TO SUIT ANY FACILITY AND BUDGET

It's time to move beyond the static and engage people based on their behaviours and trends in design. KODUM's wayfinding signage and kiosks let your visitors know exactly where they are and where they need to go. We have the solution for a variety of environments, including hospital wayfinding, museum wayfinding, office wayfinding, malls and transportation hubs.

## REDEFINING SELF-SERVICE TECHNOLOGY

Today's consumers value convenience. At KODUM we provide innovative self-service technology that creates a dynamic experience and makes the process of rewarding loyal patrons faster and easier.

We achieve this by working closely with great companies to research, develop and customise dependable platforms and products into the Wayfinding and Kiosk solution that's right for you.
